

Dear Band Parents,

November 17, 2011

I cannot express how grateful I am for all of your loving care and support that you willingly give to the band. This band program is the single most important and significant thing I've done in high school. Thank you all so very much for everything - from being fitted into my uniform for the very first time during band camp to driving the truck home after my very last Championships competition. I could not have survived all four years of marching band without all of your help. I am really going to miss this program and all the support you give me for every show. Once again, I thank you all for every ounce of support you have contributed to the band. I could not have done it without you guys!

Lots of Love,

Queenena Xu
